This is the main page for N3FJP Field Day Software. Scott's suite of contesting software is great. The user interface looks the same on all of them. It does the heavy lifting in the background for the different contest. Version 6.3 for D and E stations.

Upload Frequency in Minutes (3 is default)

Recent Contacts to include (10 is default)

Include Score Statistics
 Include Current Frequency (if known)
 Enable Automatic Upload

Status

I added this FTP status upload feature with Field Day in mind and that is how the following description is written, but when users heard that I was working on this feature for Field Day, I started getting requests to add it to all the programs, including AC Log! Using this status upload feature, clubs can see what their club station running AC Log is doing from home, club members can track their club's progress of all supported contests, DXPeditions can post where they are operating, recent contacts, etc., and you can upload your activity as well!

Have you ever had to leave your Field Day site and wonder how your group was doing while you were away? Maybe you'd like to listen along from home, but you can't find the frequency they are running? Perhaps you are headed up to the site and are wondering if there is anything they need that you could bring along? This feature, first coded in July of 2014, is designed to answer those questions!

The concept is simple. Every three minutes (or whatever interval you set), this software will FTP upload your current score statistics, a brief message and your most recent contacts (including frequency if known) to your web hosting site. Simply give the URL to your group members so that they can check via the Internet. This is an excellent way for club members to keep tabs on how it's going and any needs that may develop at your Field Day site while they are away. You can see an example by navigating your browser to:

<http://www.n3fjp.com/fd/fdstatus.html>

This isn't designed with viewing from the general public in mind, but rather a quick status update on the Internet for club members to be able to follow along from home. The HTML coding is minimal, with an emphasis on keeping the ASCII file upload to be as small as possible. The web page may be accessible on the Internet to anyone, but it is likely that only folks you provide the URL to will be able to find your data, so view this primarily as an internal communications tool for your group.

To enable the web upload, you will need:

- Internet connectivity at your Field Day site.
- A web hosting service such as GoDaddy, etc. that accepts FTP uploads.
- A valid URL that you have permission to upload to.
- A valid password for your hosting site.

After completing the form (depending on your hosting, all fields including the path and file name may be case sensitive) click Upload Now. If successful a

Field Day 2020

The screenshot shows a web browser window with the URL `field-day.arrl.org/fdentry.php`. The page features a banner for "ARRL FIELD DAY 2020" with a blue and yellow background and a blue van illustration. Below the banner is a navigation menu with links: ARRL Home, Field Day Home, Field Day Resources, Field Day Locator, Rules, Entry Form, Entries Received, Results, and Soapbox. The main content area is titled "2020 Field Day Entry - Introduction" and contains the following text:

To submit your entry for Field Day, you'll need both the data that describes your entry and any required bonus point documentation. Although the bonus point documentation can be submitted at a later time, it's recommended that you submit both at the same time.

Data Entry. You'll need all of the info that describes your entry:

- Call used and GOTA station call
- Entry class, number of participants, list of operators
- Power source and multiplier
- Claimed bonus points
- QSO totals by band and mode
- GOTA operators and QSO totals

Upload Documents. If you elect to upload required documents at this time, you'll need files for the following:

- Cabrillo log or list of stations worked by band/mode (dupe sheet)
- Required documentation for bonus points
